

LEG PRESS 3115

PLATE LOADED SERIES.

Renowned for our superior biomechanics, Exigo offers a huge range of unrivalled plate loaded equipment, covering all aspects of upper body, lower body and ground based training.

Exigo's ISO lateral technology delivers smooth converging and diverging arcs of motion, among the best in the industry. This allows users to move both limbs at the same time, or individually.

- Effective ISO independent movement
- Large anti slip footplates
- Adjustable linear seat position
- Stability holding handles
- Optional weight plate horns

LEG PRESS

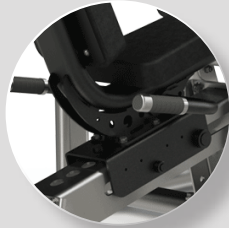

3115

The Exigo Plate Loaded Leg Press is an advanced strength training station targeting the Quadriceps and Hip Flexors. Incorporating large foot plates and a fully adjustable starting position to accommodate all users.

SMOOTH ISO MOVEMENTS

Exigo's ISO lateral technology allows users to move both limbs at the same time, or individually. Offering a highly effective range of motion and exercise pattern.

ADJUSTABLE LINEAR SEAT

Seat and body positioning on a linear track ensure an effective and biomechanical accuracy.

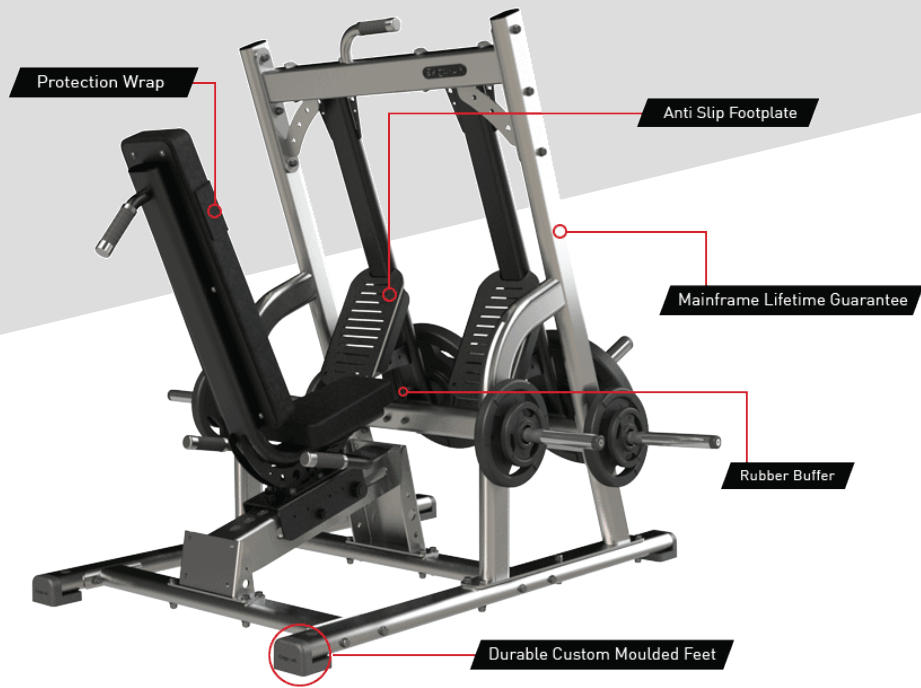

COMFORT GRIP

Ergonomically designed, comfort grip handles provided with silicone super grip covered 32mm with capped anodised aluminium ends.

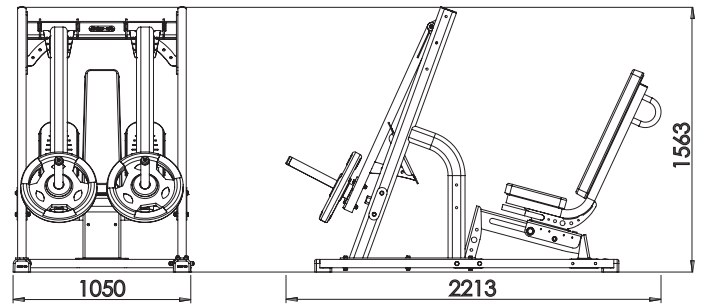

OPTIONAL WEIGHT HORNS

Optional weight horns increase the weight plate storage capacity.
