## ABOUT US

Established in 1995 by Founder and Managing Director Darren Golden, Exigo is the largest commercial gym equipment manufacturer in the UK and are recognised as a major source of quality products within the fitness industry. In more than 20 countries worldwide and an unrivalled product portfolio across Strength, Functional and Boxing.

## CERTIFICATIONS

Exigo has attained ISO 9001:2015 for quality management standards, and our products are fully compliant with the current EN 957 and EN ISO 20957 Stationary Training Equipment standards.

Exigo are also an accredited CHAS Contractor. The industry-leading health & safety contractor certification in the UK.

## MADE IN BRITAIN

Exigo is renowned for manufacturing gym equipment and our commitment to excellence. We own our own product design, testing and manufacturing facility based in the UK, and are in full control of our own production and processes.

### BRITISH STEEL

All Exigo products are produced with British Steel. Our 100x50x3 ERW flat sided oval, is produced in the UK to BSEN 10305-3:2010 specification.

### BUILT TO LAST

At Exigo we understand purchasing gym equipment is a big investment, therefore all our products are built to last and are backed by an industry leading main frame lifetime warranty.

### QUALITY CONTROL

Our products are subject to rigorous in house testing, ensuring they are fit for purpose to meet the demands and expectations of our customers.

### CONTINUAL DEVELOPMENT

We are constantly creating and developing. Our culture of continuous improvement, innovation and learning permeates the entire organisation and means that we never stand still.

## OUR MISSION

We aim to provide a source of quality products and services that meet or exceed your expectations. You will find Exigo to be among the leading suppliers of products, support and services available in the industry today, yet you will not find us the most expensive. More of what you want for much less than you would expect to pay.

We recruit the very best welders and fabricators and provide genuine opportunities for them to develop their skills and move on within the business. As part of our commitment to quality, all Exigo products are supported by an industry leading lifetime frame and weld guarantee.

# DESIGN. MANUFACTURE. INSTALLATION.

The ability to control our manufacturing processes, means that we can design and custom-build commercial gym equipment to a level that our customers tell us is unrivalled in the industry.

## // 01

### JUST IN TIME COMPONENTS

Through third party supplier agreements we are now able to reduce our lead times down to a maximum of 7 days for any materials required.

## // 02

### PICK COMPONENTS

Using our bespoke production planning system, work can be accurately scheduled and all components are picked on demand.

## // 03

### TUBE MANIPULATION

The first stage of manufacturing requires us to bend and manipulate steel using one of our four CNC tube bending machines.

## // 04

### MIG WELDING

Our team of highly skilled welders can then assemble and weld all parts using MIG welding.

## // 05

### POLYESTER POWDER COAT

Products then go through a two stage cleaning and phosphate treatment process, before a polyester powder coat is applied.

## // 06

### ASSEMBLY & INSPECTION

Exigo products are pre-assembled and inspected prior to packing and despatch.

## // 07

### FLAT PACKED

Exigo products ship flat packed, the appropriate packaging not only ensures your goods arrive safely and securely but can also help to reduce shipping and transport costs.

## // 08

### DELIVERY & INSTALLATION

Our experienced installation team is dedicated to providing an excellent service and will ensure your install runs smoothly and your equipment is set up correctly.

## X70 RIGS

Our X70 Series offers rig solutions for all budgets and requirements, all of which are fully modular and can be used as a complete set-up or as a starting point that can be expanded when your facility or demands grow. Our X70 Rigs are made with 70x70x3mm uprights which are compatible with various attachments and storage shelves to allow numerous workout possibilities along with convenient accessory locations for the trainer or user.

## X70 COMPONENTS

Exigo X70 Rigs are ingeniously designed with standard components to create fully customisable solutions. This allows for seamless compatibility, enabling facilities to create a rig to suit specific training requirements. The core of all our rigs comprises sturdy uprights and joining arms to form a strong framework for guaranteed stability and reliability. Exigo X70 Rigs allow for custom configurations, easy expansion, and reconfiguration, this means you can easily add or replace elements to accommodate new exercises or training modalities.
